Curriculum Vitae

Qualifications
- Development and implementation of interesting projects, data bases on client-server technology, hardware programming, investigation of new areas of programming.
- Knowledge and experience working of Microelectronics

Basic Information
- High work experience projects implementation "from scratch"
- I am constantly learning new and improving my knowledge of programming languages
- Assiduity
- Purposefulness
- Achieving of set targets

Work Experience

Freelance
(https://it-vladimirov.com, https://itservis.od.ua)
01.02.2020 – now()
- Development and maintenance of billing systems of charges for enterprises with a large count of subscribers
- Development sites from clients.
- Installing and configuring server platforms

Programming Skills
React, Redux, NodeJS, Delphi, JavaScript, 1C Enterprises

DataBases
Firebase, Firebird, Postgresql, MsSQL

System Virtualization
VMWare, Proxmox

Operation System
Windows Server, Windows, Linux Ubuntu, MacOS

Head of IT Department
01.08.2014 – 01.02.2020

Heat Supply of Odessa City

(https://teplo.od.ua)

- Development of Computer Software Document Flow;

- Development and manufacture of a modem communication device under the heat meter protocol.
- Dispatching system development.
- Development and implementation of API payment system for the enterprise

Programming Skills
Delphi, Angular, React, NodeJS, Java EE 7, C# (Windows Forms)
Arduino, C++, PHP, HTML, CSS, JavaScript, 1C Enterprises
DataBases
Firebird, Postgresql, Oracle, MySQL, MsSQL
System Virtualization
VMWare, Proxmox
Operation System
Windows Server, Windows, Linux Ubuntu, MacOS

Head of IT Department

01.09.2009 – 01.08.2014
OJSC " Odessa Combined Heat and Power Station"
- Implementation and maintenance of 1C Enterprise 8.2 (Accounting for Ukraine, Wages and Human Resources) . Creating of plug-ins, processing of a server version for Linux;
- Development of Computer Software Document Flow;
- Development of Computer Software OLE-automation of electrical power accounting' system;

Programming Skills
Delphi, JavaScript, AJAX, 1C Enterprises

DataBases
Firebird, Postgresql, MySQL, MsSQL

System Virtualization
VMWare, Proxmox
Operation System
Windows Server, Windows, Linux Ubuntu, MacOS

Computer Software Engineer

Dec. 2011 – Jan.2013
New IT Technologies (https://nit.org.ua)
- Experiential Computer Software Development. Author's development and implementation of new programming support (software) when requested by the customer. Part-time job.

Computer Skills
Delphi, C# Socket Programming;
DataBases
Firebird, Postgresql

Informational Sector Head

Aug 2008 - Sep 2009
Land Resources Management Agency of Odessa
- Implementation of own program support of document flow, implementation of GIS6.
- Computers and servers maintenance.
Programming Skills
Delphi, PHP, CSS;
DataBases
Firebird, MySQL, Access

Operation System
Windows, Linux Ubuntu

Head of Analytical Centre

May 2006 - July 2008
Heat Supply of Odessa City (https://teplo.od.ua)

- Implementation of the system of debts' notification via phone.
- Development of computer support for the work with call recipients, calculation of heat supply,
- Implementation of new server systems on the basis of Linux.
- Maintenance of computer equipment of the clients.
- Implementation of the monitoring system of the Boiler Equipment. (Trained with work in Sweden)
-

Programming Skills
Delphi, PHP, CSS, AJAX, JavaScript;
DataBases
Firebird, MySQL
Operation System
Windows, Linux Ubuntu

Programmer

Jan 1998 - Dec 2000
Heat Supply of Odessa City (http://teplo.od.ua)

- Development of computer software for the work with customers. Calculation of heat distribution,
- Development of computer software with visualization of stop-valves operation.

Programming Skills
Delphi, HTML, CSS
DataBases
Firebird, MySQL, MicrosoftSQL
Operation System
Windows, Linux Ubuntu

Education

Odessa National Polytechnical University (Ukraine, Odessa)
Graduation Year 2006
Computer Systems and Networks. Specialist

Language Skills

English – A1 (Now studying)
Polish – A1
Russian - native
Ukrainian - native

Additional Information

Computer Skills

Programming Languages:
- Borland Delphi (work experience –more than 12 years)
- HTML (work experience –about 10 years)
- JavaScrypt, TypeScrypt (work experience –more than 2 years)
- React (work experience –more than 2 years)
- Angular JS ((work experience –more than 1 years)
- Node JS (work experience –more than 2 years)
- TSQL (work experience – more than 10 years)
- Java (work experience –more than 1 years)

Databases:
- Firebird (work experience-more than 5 years)
- MS SQL (work experience-more than 5 years)
- MySQL (work experience-more than 5 years)

Other Programming Support (Software):
- Postman
- DBeaver
- Visual Studio Code (work experience-more than 2 years)
- FastReport (work experience-more than 5 years)
- NetBeans

Processing and administration of servers:
- Microsoft Server 2003 - 2008 (processing and administration)
- Linux Ubuntu (work experience –more than 5 years, processing and administration)
- Proxmox
- VMWare 5.0-5.5
System Programming:
 -Programming of microcontrollers of the AVR (Atmel) series
